**Three California Firms Choose Omega Legal<sup>VX</sup> for  
Its Low Cost of Ownership, Access & Performance**

*Citing Implementation Process as Organized, Well-Managed*

PHOENIX -- May 21, 2009 – Omega Legal Systems, Inc., a nationwide provider of financial and practice management software specifically designed for mid-to-large size law firms, announced today that the following three firms located in California have selected Omega Legal<sup>VX</sup> for their time, billing, accounting, and business intelligence: Kronick, Moskovitz, Tiedemann & Girard of Sacramento; Wingert Grebing Brubaker & Goodwin, LLP of San Diego; and Dickenson, Peatman & Fogarty, PLC of Napa.

The firms selected Omega Legal<sup>VX</sup> to replace their financial and practice management systems, citing that Omega's fully integrated system offers low cost of ownership, easy access to critical financial data, unparalleled system performance, and streamlined marketing and collections support.

Wingert Grebing Brubaker & Goodwin, LLP was also impressed by the organization and attention to detail exhibited by Omega's client services team during implementation.

"We were impressed with Omega's organized implementation. How they walked the firm through all of the materials and the training right before we went live was excellent," said Carol Madle with Wingert Grebing Brubaker & Goodwin, LLP. "The transition went smoothly and switching to Omega was the right move to make. The firm is so excited about being an Omega client that we want to start a San Diego users group."

The firm of Kronick, Moskovitz, Tiedemann & Girard was equally impressed with the sophistication of Omega's product offering for the price. "As our firm began the initial review process and compared Omega Legal<sup>VX</sup> to the other systems on the market, we felt our firm was getting a high-end system for the price of a mid-level system with Omega," said Karen Sluiter, Chief Financial Officer of Kronick, Moskovitz, Tiedemann & Girard. "At this point in our implementation, we are impressed with the organization of the conversion process, especially the way in which Omega has thought through all of the 'what if' situations with conversion data avoiding potential problems or issues."

"We are pleased that we are able to provide these firms with a fully integrated system that fits their unique business requirements," said Don Gall, President and Founder of Omega Legal Systems, Inc. "We take great pride in developing a product that is not only competitive in its cost to purchase and maintain, but also in the system's robust capabilities and adaptability. As with most companies today, law firms are being asked to do more with less. Now with Omega Legal<sup>VX</sup>, these three firms will have the best tools right at their finger tips to help them increase productivity, boost profitability, decrease duplicate workflows, and deliver vital financial data directly to the partners' desktops."
